

Supplement to employment contract for protection against disease

This contract is a supplement to the existing contract between:

(Name of employee)

and

(Name of employer)

Protection against disease is of crucial importance to pig farms in Denmark. By signing this contract, the employee declares that he/she has understood the requirements in this supplement to the employment contract. The employee also declares that he/she will comply with these requirements during his/her employment. Failure to comply with the stipulated requirements for the protection against disease can have serious consequences for employees.

The following requirements for the protection against disease apply to the terms of employment:

- 1. The employee must always enter the pig unit via the changing area.**
- 2. No access to the pig unit is permitted before the following have been carried out:
*Handwashing, change of clothes, cleaning/disinfection of equipment***
- 3. It is forbidden to feed pigs with kitchen and food waste.**
- 4. If the employee comes from – or has visited - a high risk country,¹ a 24-hour quarantine period must be observed following arrival in Denmark.**
- 5. Food, hunting trophies and live animals brought from abroad must not get into contact with the pig unit area.**
- 6. Private mobilephones are NOT allowed in the stabels at any point.
Mobilephones are only allowed in the canteine.**
