PROGRIS

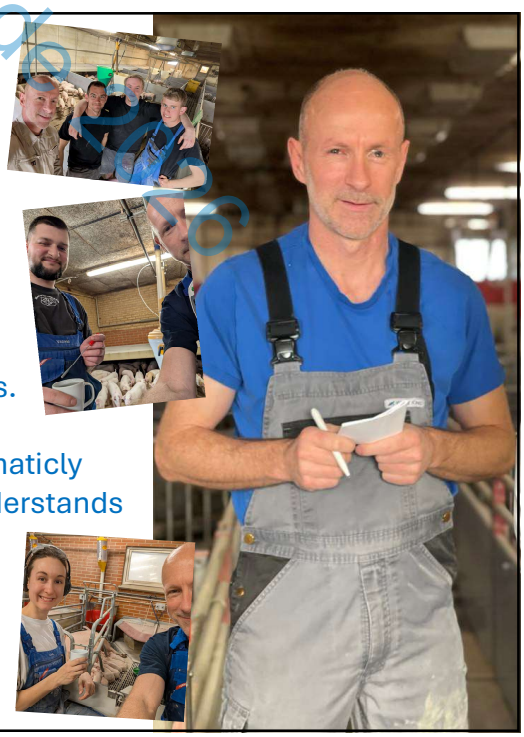
Who is PROGRIS ?

- **Jes Callesen, Haderslev**
- **Owner of PROGRIS**
  - ✓ I do hands-on management with weaner pigs.
  - ✓ I work with you in the stable. Fx at weaning.
  - ✓ I help you make good routines & work systematicly
  - ✓ I explain WHY and HOW … so everybody understands



2

Take-home-messages

1. THE SMALLEST PIGS at weaning – give them special care
2. ACTIVATE ALL pigs the first days efter weaning
3. WEIGHING CAMERA is a helpfull tool to get better results

6

Activate all pigs the first days after weaning

SvineVet Årsmøde 2026

7

Activate pigs day 0-5 post-weaning

- ✓ Enough eating spaces
  - Floor feeding, extra troughs
  - Better: Extra feeder, max. 36 pigs/feeder (less work)
- ✓ Stimulate feed intake 4-8 times daily
  - Electrolyte-solution
  - Wet feed, milk ect.

8

Electrolyte solution

- Attracts pigs to use the feeder and drinking nipple.
- It tastes good. Use ½ dosage.
- Give only a little, but often (4-8 times/day on day 0-5)

- Easy to work with – no ekstra troughs to move & wash
- Easy to keep good feed hygene.
- Easy to spot weak pigs from the corridor. Fast treatment

9

PROGRIS

Activate all pigs the first days after weaning

10

Give electrolyt very easy & cheap

11

11

SvineVet Årsmøde 2026

PROGRIS

Chase them out the first 2 days ...

... after that they come running to you !!

12

Not all feeders are suitable for ”watering”

13

14

Weighing cameras – a very helpfull tool

SvineVet Årsmøde 2026

15

Weighing cameras - a very helpfull tool

- The camera - placed above the pen - weighs the pigs automatically.
- Identifies where things go wrong.
- Feed changes, treatments, abnormal events are noted on the app (mobile phone).
- PROGRIS can help you to learn from the data!!

16

Weighing camera (example)

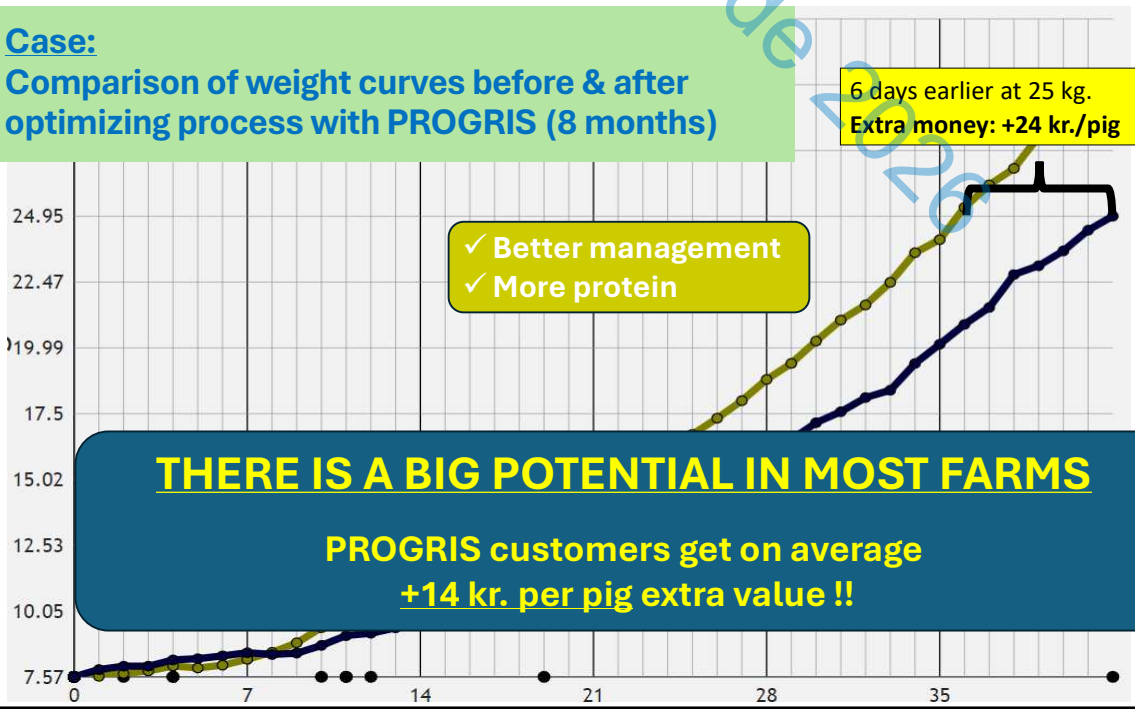
Example – how to use & learn from the weighing camera:

- ✓ Follow-up after every team
- ✓ Short report is send on e-mail.
- ✓ Short on-line meeting (20 min.) with farmer, staff, vet, feed company …
- ✓ Results & agree on adjustments for next team in weighing box.

Svinevet Årsmøde 2026

17

Case:
Comparison of weight curves before & after optimizing process with PROGRIS (8 months)



THERE IS A BIG POTENTIAL IN MOST FARMS

PROGRIS customers get on average +14 kr. per pig extra value !!

18

Thank you for your attention !
